KIT (Keep in Touch) Mail from OLLI at UCI

**Monday,
May 25, 2020**

Happy Memorial Day.

OLLI Summer Session FREE to current OLLI members.

Coming soon! The OLLI Summer Session will include 10 new classes on a wide range of topics. These classes will be presented via live streaming through the [OLLI Remote Learning Center](#) during July and August. For Annual and Spring members, Summer Session will automatically be included at no additional fee. New members will pay a fee of \$25. Schedule to be announced on June 1st.

New! Play OLLI Categories via Zoom

Do you like to play word games? If so, join the OLLI Categories Zoom session on **Wednesday, May 27 at 4:00 PM**. Categories is a game where players come up with answers in a specific category using a specific letter. Example: Category = states; letter = C; answer = California. The challenge is to come up with unique answers in order to score the most points. All that is required to play Categories is pencil and paper.

The first 7 people to email me at vines1219@gmail.com will be invited to our first session.

Virtual Morning Coffee Mingle

Join other OLLI members this week for a **virtual cup of coffee** as we talk about what we are doing in quarantine, coping strategies, pets, exercise and more. We will meet online at **10 AM on Wednesday, May 27**. Let us know if you want to join by replying to this e-mail and we will send you a Zoom invitation.

Connect with Your OLLI Friends Through Our New Facebook Group!

Join our new, members-only Facebook group where we can virtually connect to talk about books, movies, recipes, hobbies and more! **Simply reply to this e-mail to let us know**

you want to join, and we will send you an invitation!

[WORLD WAR II REMEMBERED: Part 4 of 4:](#)
[May 26: Tuskegee Airmen and U.S. POWs](#)

(Click on class title to log in and view live class.)

In 2010-14, OLLI presented a five-part class entitled World War II: Remembered, which brought together veterans, Holocaust survivors, historians and civilians with their stories of the war. Four videotaped years provide a treasure of fascinating stories. We will present a series of four classes that include selections from the video library and discussion about those presenters.

[THE HUMAN UNDERSIDE OF CHINA'S ECONOMIC RISE:](#)
[Part 3 of 3](#)

(Click on class title to log in and view live class.)

Much of the world has been mesmerized by China's economic miracle and its results. Millions of people have indeed been lifted out of poverty. However, there are still millions who have been left behind. This includes migrants from the countryside and a large number of poorly-educated urban workers who were fired to make industry competitive on the world market. The course will explore the political, economic and social reasons behind those problems.

Presenter: Professor Dorothy J. Solinger, retired after 30 years of teaching in UCI's Political Science Department. She has authored six books and edited another seven. Her research has focused on internal migration and urban poverty in China.

POSTPONED CLASS:
SC216 THE SECRET LIFE OF GALAXIES
Rescheduled date TBD
(Original date: Monday June 1)

Rescheduled due to Cox Cable construction on presenter's street
and possible service outage.

There are over 100 billion galaxies in the observable universe and a single galaxy can contain over a trillion stars! When you look at pictures of galaxies have you wondered how they got those shapes, how they have formed and how they evolved? When did this begin, and will some of them collide? Are some much different than others? Is the Milky Way unusual or ordinary? This presentation will address those questions and more. We will also investigate simulation techniques used to expand our understanding and discuss current and future missions.

Presenter: Robert B. Wilson, Ph.D., NASA/Marshall Space Flight Center (ret.), OLLI STEM Committee

[BREAKTHROUGHS IN SCIENCE 2019](#)

(Click on class title to log in and view live class.)

December's issue of Science magazine, the leading journal of the American Association for the Advancement of Science (AAAS), goes out on a limb and describes the major scientific breakthroughs of the past year. We will describe some of the selections, what qualifies them as breakthroughs, what the relevance to non-scientists may be, how future research pathways might be affected, and their status at the time of this presentation.

Presenters: Robert B. Wilson, Ph.D., NASA/Marshall Space Flight Center (ret.), OLLI STEM Committee

Dennis Silverman, UCI Physics and Astronomy Professor (ret.), OLLI STEM Committee
