## IMPACTS OF CLIMATE CHANGE AND ARIDIFICATION

SC 206

The release of the IPCC 6<sup>th</sup> Assessment Report (AR6) was a wake-up call that the climate is warming at an accelerated level. One significant finding is that areas with climates like California are becoming more arid. This class will present several experts knowledgeable on the serious impacts that we are experiencing today, and the possible expectation for a worse future. Is it inevitable?

Presenters:

- April 6: David Feldman, Professor of Urban Planning and Public Policy and Political Science, Director of Water, UCI
- April 20: Eric Rignot, Professor, UCI ESS, JPL Scientist
- April 22: Greg Woodside, Exec. Dir. of Planning and Natural Resources, OC Water District
- April 29: Francois Primeau, Professor, UCI ESS
- May 6: James Randerson, Cicerone Professor, UCI ESS.

# ARCHITECTURE AND MUSIC

## A Brief Tour Through Its Influence on Society

at University of California, Irvine

SS 315

Monday, May 9

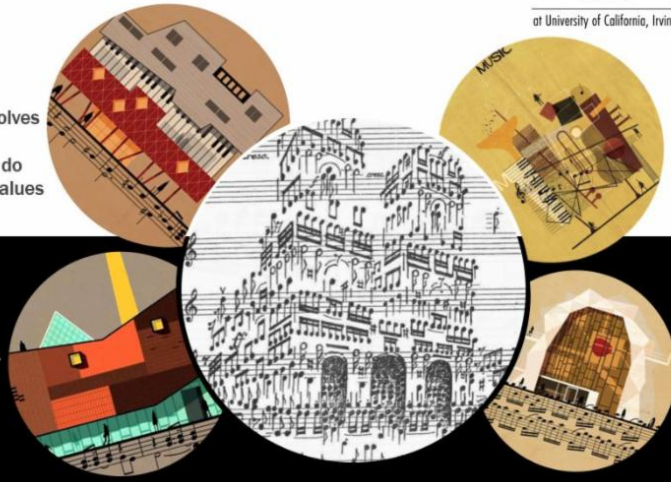

10:00 AM - 12:00 PM

Sound and space reflect people's perception of their world, both western and non-western. This course involves listening to various musical selections and viewing architectural spaces, both secular and religious. How do they reflect the historical context of their era? What values and concerns currently shape our space and music?

Presenter: Karen Linkletter, Ph.D., American History, retired Cal State Fullerton American Studies Department. Karen is the Research Director of the Management as a Liberal Art Research Institute, as well as a cellist who teaches and plays professionally.

*"Music is liquid architecture;  
Architecture is frozen music."  
~ Johann Wolfgang von Goethe*

**SC 210**  
**Format B****SHOULD MY NEXT  
CAR BE ELECTRIC?****Thursday, May 5**  
**1:00 PM - 3:00 PM**

We will examine pros/cons of purchasing and owning an all-electric car or plug-in hybrid car with the goal of arming you with the knowledge needed to decide on your next vehicle purchase. You will learn about their history, how they operate and the difference in the approaches used by car makers including a survey of some popular current models. We will examine the big questions surrounding their adoption including: are they really better for the environment, what will happen to our power grid, are they safe, will batteries fail, how much range do I need, can they be driven long distances and the cost over their lifecycle vs. gas vehicles.

Presenter/ Developer: Marc Nussbaum,  
OLLI STEM Committee, Science Author  
and Educator

Return with us now to the age of the Greeks! Following up on his series on Modern European History, this semester will examine the era of the Greeks and how their contributions changed the world.
